Explore the Natural World With Classroom Learning Kits

Created for grades 3-5 by National Audubon Society environmental education experts.

“GETTING TO KNOW BIRDS”
A NEW CLASSROOM RESOURCE KIT FOR 2018-19

Topics

Get to Know Birds Birds are the wildlife next door. Besides learning to identify and enjoy them, we can be good neighbors by providing bird-friendly habitat.

Hooray for Hummingbirds! They're tiny, colorful, and acrobatic in the air, but hummingbirds also play an important role as pollinators in native habitats.

Plants Are for the Birds! Native plants provide birds with food, protection from predators, and places to nest and rest—a life-sustaining connection.

EACH CLASSROOM KIT INCLUDES

- Printed student magazines for 32 students
- Online interactive features, teacher guide with activities
- Hands-on investigations in local habitats and in the classroom
- Informational science text (reading and writing)

CORRELATED TO:

- Common Core Reading and Writing Standards
- Disciplinary Core Ideas and Component Ideas of the Next Generation Science Standards

ALSO AVAILABLE:

- | | |
|-------------------------|------------------------------|
| Wild About Birds | Sharing Our World with Birds |
| Action for Planet Earth | Birds, Bees, Flowers & Trees |
